

Exam Date: 12-FEB-2026

Registration: 79e2cb6f-6029-4477-b02a-9977452ba2c0

Your Score: 74%

Passing Score: 68%

Result: Pass

Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

Compile Java code, produce modular and non-modular jars, runtime images, and implement migration using unnamed and automatic modules

Create and use enumerations with fields, methods and constructors

Create and use interfaces, identify functional interfaces, and utilize private, static, and default interface methods

Create classes and records, and define and use instance and static fields and methods, constructors, and instance and static initializers

Handle exceptions using try/catch/finally, try-with-resources, and multi-catch blocks, including custom exceptions

Implement inheritance, including abstract and sealed classes. Override methods, including that of an Object class. Utilize polymorphism and type casting, and differentiate object type versus refer

Manipulate date, time, duration, period, instant and time-zone objects using Date-Time API

Serialize and de-serialize Java objects

Understand variable scopes, apply encapsulation, and make objects immutable. Use local variable type inference, including using it to define lambda parameters

Use Java object and primitive Streams, including lambda expressions implementing functional interfaces, to produce, filter, transform, consume, and sort data

Use primitives and wrapper classes including Math API, parentheses, type promotion, and casting to evaluate arithmetic and boolean expressions
